Privacy Policy – Secured24
Last Updated: June 2025
Developer: AEY on Apps (aeyonapps@gmail.com)

🔐 Overview
Secured24 prioritizes your privacy. The app does not collect personal data, does not require an account, and does not use cloud storage or synchronization. All data remains encrypted and stored only on your device.

📂 Data We Collect
Secured24 collects limited, non-personally identifiable data for analytics and advertising purposes.

1. Analytics Data (via Firebase):
– Screen views and feature usage
– Device model and OS version
– Crash reports and diagnostics
Purpose: To improve functionality and user experience.
Provider: Google Firebase

2. Advertising Data (via Google AdMob):
– Advertising Identifier (IDFA)
– Approximate location (city-level)
– Ad interaction logs
Purpose: To deliver non-intrusive interstitial ads.
Provider: Google AdMob

🎯 Tracking & App Transparency (ATT)
We request App Tracking Transparency (ATT) consent as required by Apple.
– If granted: your IDFA may be used for personalized ads
– If denied: ads will still be shown, but not personalized

You can manage your tracking preferences anytime via:
Settings → Privacy → Tracking
(You can turn tracking on or off anytime.)

🛡️ What We Don't Collect
– No personal identifiers (name, email, etc.)
– No synced or cloud-stored content
– No precise GPS location
– No contact or login data

All your content remains fully offline and encrypted on your device.

➡📱 Permissions Used
– Microphone → to record voice memos
– Camera → to capture photos and videos
– Face ID / Touch ID → for biometric locking
These permissions are used only for local features. No personal data is transmitted to us or to third parties.

📄 Third-Party Services
Secured24 uses trusted third-party providers:
– Firebase Analytics: https://firebase.google.com/support/privacy
– Google AdMob: https://support.google.com/admob/answer/6128543
